MENT ENSURES FAST AND
CORRECT POSITIONING OF
THE PATIENT RELATIVE TO
THE MACHINE

FOLDING FOOTREST
PROVIDES THE PATIENT
WITH INCREASED STABILITY
REGARDLESS OF THE
HEIGHT SETTING

Item no. 80103

The VELA Mammography Chair is optimal for patients who need to sit down during examinations, e.g. women prone to fainting, wheelchair users or patients with diseases affecting the musculoskeletal system.

- :: **Good working position for the staff** because regardless of the patient's height they can be seated at the right height for the staff, **reducing stress in the back, neck and shoulders**
- :: **Quick and secure patient positioning** for the examination device using the chair's smooth-running wheels, push bar and foot brake
- :: More **accurate examinations** for anxious or unsteady patients as they are more able to relax when seated
- :: **Optimal positioning** of the patient with electric height adjustment, which makes it **easy to vary the chair height** to suit the equipment and staff
- :: **Forward-leaning position** easily achieved and secured by adjusting the backrest

Staff Chairs

VELA Samba 120

- :: Sit-stand chair **ideal for alternate standing and sitting work**
- :: **Ergonomic design relieves stress on the back and legs when working in a standing position**
- :: **Reduced depth** seat makes it easy to get on and off the chair quickly and to work without stooping
- :: Small backrest with good lumbar support **promotes an erect, upright seating position and allows free movement of shoulders and arms**
- :: Compact seat design makes it easy to move the chair around

VELA Samba 120

Item no. 80142

VELA Latin 100

- :: Easy adjustment of seat height and tilt as well as backrest settings provide **active seating positions** that promote movement
- :: Ergonomically shaped seat and backrest that **support and promote good posture**
- :: Pictograms are provided on the chair handle to assist **quick and easy chair adjustment**
- :: **Ideal multi-use chair** for office and computer work where a **supportive, comfortable** and easy-to-adjust chair is needed

VELA Latin 100

All chairs and stools are available with different types of wheels and a foot-operated height adjustment

Hygiene Benefits

VELA medical chairs are designed to meet the stringent hygiene and disinfecting requirements in the healthcare sector

- :: For optimal hygiene, chairs have easy-to-clean surfaces without recesses where dirt might gather, including the underside of the chair
- :: All backrests are supplied with edge bands to prevent dirt collecting in the joints
- :: The chairs have easily cleanable surfaces without any recesses, where dirt might gather
- :: All parts can withstand disinfection, for example, with alcohol or chlorine at the recommended concentration and mixing ratios
- :: Light-coloured surfaces make it easy to spot marks when cleaning

Distributor Details:

Danish Quality

VELA is a Danish family-owned company founded in 1935 by Vermund Larsen. VELA is headquartered in Aalborg, Denmark and has its own development department, and production and padding workshop. In order to be close to our customers, we have a strong, international dealer network.

CHAIRS DESIGNED WITH CARE AND PRECISION

The development department at VELA is constantly focused on optimising safety, functionality and ergonomics in cooperation with health professionals.

We take into consideration that chairs in the healthcare sector are exposed to severe wear and tear for many hours each day. At VELA, we use hard-wearing mechanical parts and extra-durable seating materials to keep the chairs clean and functional for many years. All VELA chairs are CE marked and made in Denmark.
